WORK EXPERIENCE

REA Group

Senior Developer

2021 - Current

Moved over to FinX, within super squad as a senior developer, focusing on UI development. Through this I been part of the uplifts to construct kit 4 and the change in banking partners off of NAB.

- Pushed hard for, and was successful in removing the squads legacy UI components, an replacing them with Construct Kit
- Lead large parts of the UI uplift to Construct Kit 4 within finX
- Have pushed to move but of the squads system over to argonaut where appropriate
- Lead the piece of work to add home loan comparisons to PLW
- Lead the piece of work to add broker enquiry forms to PLW
- Tech mentor for the squad's springboarder
- Am a regular tech interviewer for new candidates to REA

REA Group

Developer

2020 - 2021

Joined REA as the first Melbourne developer in Broker X. Through this I saw the completion on launchpad, refocus to migrate off of lotus notes, an more to Salesforce and acquisition of Mortgage choice. I also received a promotion to senior developer during this time.

- Pushed for, and was successful in the adoption of Construct Kit within launchpad, the smartline frontend
- Converted all repos within the Dragonwell squad over to typescript, and was instrumental in the adoption in other squads in Broker X as well
- Created and maintained the squads onboarding wiki
- Reduced build times of most repos by a significant amount
- Lead the rollback strategy for the salesforce data migration
